Multi-Site Due Diligence

Multi-Site Due Diligence System

'Front Of House' is what your business is all about.

You strive to give your customers the food they want with the service they appreciate, to bring them back time and time again. So it's only natural that you put a lot of effort into getting things right in customer areas.

But what about Behind The Scenes?

Health & Safety and Food Hygiene are vital to your business, too.

Running a safe, healthy and hygienic operation means that you can be more efficient, with less risk to your reputation and profits.

Coping with the red tape of rules and regulations and keeping the Environmental Health Officer happy can be a positive process!

You can't be everywhere at once

If you have multiple sites or branches, it becomes increasingly difficult to ensure compliance. You've probably got carefully prepared policies and procedures, but are they right for the size of business you are now?

Are they easy and straightforward for your site managers to follow, without distracting them from their main duties?

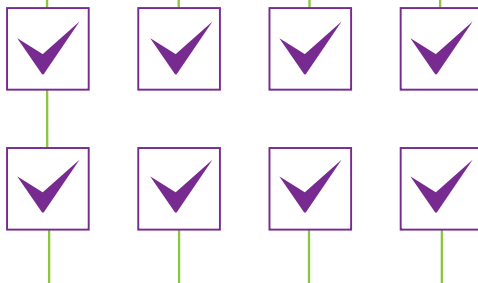

Is your paper-based system becoming difficult to manage?

Can you always be sure that everything is being correctly followed and documented in your Due Diligence system – your only defence in Law if something goes wrong?

ONLINE

HEAD OFFICE

Automatic protection for your business

■ **SAFAS ONLINE** is a Due Diligence system specifically designed for multiple sites or branches. It can handle all of your locations simultaneously and could give you an immediate overview of your entire operation – **wherever you are, whenever you want.**

✓ controls multiple sites

✓ easy to use at local level

✓ gives you automatic reports on errors or problems

✓ immediate and secure access to performance data

✓ records and stores vital Due Diligence data for your protection

✓ uses simple internet connections – no expensive networks or software to manage

■ Easy to use

SAFAS ONLINE is designed to be simple to use by anyone with basic computer skills.

It uses straightforward and easy to follow forms that are tailored to your business, encouraging correct and regular reporting of vital information from each of your branches. The branch simply connects over the Internet to our secure website, enters the correct password and is taken step by step through the process.

The data is stored on our servers for your use and analysis.

Highlight/Exception Reports, telling you only what you need to know about current issues, can be sent straight to you automatically by email. And with secure management access from virtually anywhere in the world over the Internet, you don't need to be at your desk or on site to know what's happening across the business.

■ An à la carte solution...

SAFAS ONLINE can be tailored to your business, reflecting both your corporate image and your existing controls and documentation, which means that disruption to normal working patterns is minimised. And because it's modular, **SAFAS ONLINE** can grow with your business needs and adapt to meet changing regulations, keeping you at the forefront of Best Practice.

■ ...at a table d'hôte price.

SAFAS will design, configure and manage your Due Diligence system, so you have no special networks or software to worry about. You simply pay a small fixed annual charge for each site that you want to add to your system.

Call now to arrange a no-obligation demonstration or register on www.safas.co.uk for more details

SAFAS services

Training

SAFAS is an accredited training centre for The Chartered Institute of Environmental Health. Courses are available in: Food Hygiene; Health & Safety; First Aid at Work; Stress Awareness; Retail Violence.

Documentation

With ever-increasing levels of legislation and regulation, it is essential that you maintain proper systems and controls, all of which must be documented for possible inspection. **SAFAS** can provide a full range of Due Diligence systems, policy and operational manuals (online and printed).

General Consultancy

SAFAS consultants can work with you in a wide number of areas, helping you to keep your business efficient, effective and within the law: Inspections of premises and practices; Supplier vetting and auditing; Advice on Risk Assessment and Hazard Analysis.

The SAFAS commitment to Caterers

We'll help you cope with the red tape and legislation so you can run your business safely, without losing sight of your primary aims of customer service and business efficiency.
